

Linux wargames by OTW			Port used: 2220	Solved by Pallavi Khadse
LEVEL	FIND	USERNAME	OBTAINED PASSWORD	SOLUTION
29	find password to level 30	bandit29@bandit.labs.overthewire.org	qp30ex3VLz5MDG1n91YowTv4Q8l7CDZL	#We are going to clone the git repo in our computer. So, we exit bandit28 and come to cmd prompt in our computer. #We first make a folder called "bandit28_git" under /tmp in windows. <pre>mkdir tmp</pre> <pre>cd tmp ></pre> <pre>mkdir bandit28_git/ ></pre> <pre>cd bandit28_git ></pre> <pre>git clone ssh://bandit28-git@bandit.labs.overthewire.org:2220/home/bandit28-git/repo/ ></pre> #it will ask for the password, paste the password for level28 and the repo from git will be now download/cloned in your computer. <pre>#access the repo</pre> <pre>cd dir ></pre> #you will see 2 directories and 1 file named "README.md", please read this file type: <pre>type README ></pre> # The password shown says <not in production>, to reveal this password, access the git history: <pre>git log ></pre> <pre>git show ></pre> #Still no password found. So, let check in other branches of this repo.

				<pre>git branch > git branch -a > #Access other branch, say branch "dev" git checkout dev ></pre>
