

Linux wargames by OTW			Port used: 2220	Solved by Pallavi Khadse
LEVEL	FIND	USERNAME	OBTAINED PASSWORD	SOLUTION
20	find password to level 21	bandit20@bandit.labs.overthewire.org	EeoULMCra2q0dSkYj561DX7s1CpBuOBt	#Step is to first start a new server on the localhost and then make suconnect (act like a client) to connect to this server. Note: Server listen. To start a server, we use "netcat" and use port "4444" to connect to. While starting a new server, we also send bandit20 password and receive bandit21 password. echo "paste bandit20 password" nc -nlvp 4444 & > # After the above command, the server is now listening. # Make suconnect (this is a given SUID binary) as a client to connect to this server at the port 4444. ./succonnect 4444 >
